HOW TO REACH US

ABOUT CGEC

To be a centre of excellence in technical education by providing high-quality learning opportunities, fostering innovation and research, and developing competent engineers capable of meeting future technological challenges while contributing to society.

To provide quality technical education through experienced faculty, modern laboratories, and advanced learning resources. To nurture innovation, critical thinking, and research-oriented learning. To strengthen industry–institute interaction through internships, training, and collaborative initiatives. To develop technically competent, ethically responsible, and socially conscious engineering professionals. To contribute to regional and national development through technology, innovation, and community engagement.

© PRAYAS BISWAS (ME '27)

OUR MISSION & VISION

MISSION

The mission of Cooch Behar Government Engineering College is to impart quality technical education to the students at the undergraduate levels of engineering with the aim to make them complete human beings possessing depth of knowledge not only in their own discipline but also in the kindred areas, which shall necessarily be accompanied by a wide mental horizon making them capable of sifting the grain from the chaff, the honesty from the chicanery, the truth from the untruth.

VISION

The vision of Cooch Behar Government Engineering College is to produce high quality, globally competitive technical manpower and to become a centre of excellence in a few select areas of high-end technologies. It also envisages to act as an incubation cell for entrepreneurship activities in the region in association with the industry houses of the locality and outside. Keeping pace with the global through continuing technological developments education programmes is its another cherished ambition.

FROM THE DESK OF PRINCIPAL, CGEC

DR. SUSHOVAN CHATTERJEE (PRINCIPAL IN-CHARGE, CGEC)

✉ principalofficecgec@gmail.com

It gives me immense pleasure to introduce the students of Cooch Behar Government Engineering College (CGEC) to esteemed organizations and industry partners. Since its inception, the college has been dedicated to imparting quality technical education while fostering innovation, creativity, and professional ethics among its students.

At CGEC, we believe in holistic development. Our academic curriculum is complemented by research, co-curricular activities, and industry-oriented training that enable students to grow into competent, confident and responsible professionals. With the guidance of experienced faculty.

FROM THE DESK OF TPO, CGEC

PROF. SOMEN MONDAL (TPO IN-CHARGE, CGEC)

✉ placement@cgec.org.in ☎ +91 93318 92632

It is with great pleasure that we extend a warm welcome to you through the pages of our placement brochure. Today, we embark on a journey that represents not only a significant milestone in your educational pursuits but also the first step towards a promising and fulfilling career.

At Cooch Behar Government Engineering College, we are committed to nurturing talent, fostering innovation, and empowering the leaders of tomorrow. Our core mission is to provide you with an educational experience that goes beyond textbooks and lectures. We aim to equip you with the knowledge, skills, and mindset necessary to thrive in a rapidly evolving world.

DEPARTMENTS

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

The Department of Computer Science & Engineering nurtures future technology professionals through a curriculum focused on programming, artificial intelligence, machine learning, data science, cybersecurity, cloud computing, and software engineering. Supported by modern computing facilities and experienced faculty, students engage in coding competitions, live projects, internships, and research activities. The department emphasizes innovation, teamwork, and problem-solving, preparing graduates for successful careers in the global IT and technology ecosystem

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

The Department of Electronics & Communication Engineering prepares students for careers in electronics, communication systems, embedded systems, VLSI, signal processing, IoT, and semiconductor technologies. With state-of-the-art laboratories, experienced faculty, and industry-oriented learning, the department fosters innovation and technical excellence. Students participate in research projects, technical competitions, internships, and skill development programs, equipping them with the expertise required to thrive in the rapidly evolving electronics and communication industry

DEPARTMENTS

DEPARTMENT OF ELECTRICAL ENGINEERING

The Department of Electrical Engineering provides a comprehensive education in power systems, electrical machines, control systems, power electronics, renewable energy, and smart grid technologies. The curriculum integrates theoretical knowledge with extensive laboratory training, industrial exposure, and research opportunities. Students are encouraged to develop analytical thinking, innovation, and technical proficiency through projects, internships, and industry interactions, enabling them to meet the growing demands of the power, energy, manufacturing, and automation sectors.

DEPARTMENT OF MECHANICAL ENGINEERING

The Department of Mechanical Engineering is committed to developing skilled engineers with strong fundamentals in design, manufacturing, thermal engineering, industrial engineering, robotics, and automation. Equipped with modern laboratories, advanced software tools, and experienced faculty, the department encourages innovation, research, and practical problem-solving. Through industrial visits, internships, technical workshops, and project-based learning, students acquire the technical expertise, leadership qualities, and professional ethics required to excel in core industries as well as multidisciplinary engineering domains.

DEPARTMENTS

DEPARTMENT OF CIVIL ENGINEERING

The Department of Civil Engineering is dedicated to producing competent engineers capable of designing, constructing, and maintaining sustainable infrastructure. The curriculum covers structural engineering, geotechnical engineering, transportation, environmental engineering, water resources, and construction management. Through advanced laboratories, field visits, surveying practices, internships, and industry collaborations, students develop strong technical knowledge, practical skills, and a commitment to sustainable development, enabling them to contribute effectively to infrastructure and nation-building projects

PROTOTYPE LABORATORY

3D PRINTING LABORATORY

The 3D Printing Laboratory at Cooch Behar Government Engineering College serves as a center for creativity, innovation, and rapid prototyping. Equipped with modern additive manufacturing technology, the lab enables students to transform digital designs into physical models, bridging the gap between imagination and reality. It provides hands-on experience in CAD modeling, product development, and prototype fabrication, fostering practical learning and interdisciplinary research. The laboratory encourages innovation, supports academic projects, and prepares students with industry-relevant skills in advanced manufacturing technologies.

ANNUAL ACTIVITIES

CROESO

CROESO is more than just a Freshers' Party—it's the beginning of an unforgettable journey. It marks the first step into the vibrant family of our college, where new friendships are formed, talents are celebrated, and countless memories begin. Filled with music, dance, laughter, and excitement, CROESO warmly welcomes every newcomer and inspires them to embrace the opportunities that lie ahead. Here's to new beginnings, endless possibilities, and a lifetime of memories.

ESPERANZA

Esperanza is the annual Tech-cum-Cultural Fest of Cooch Behar Government Engineering College, where technology meets talent and culture sparks creativity. It brings together students from all engineering branches or a vibrant mix of technical events, cultural performances, competitions, and innovation showcases. With enthusiastic participation from across the region, Esperanza is a celebration of youthful energy, collaborative spirit, and boundless creativity, making it one of the most awaited events of the year.

BYTEBURST

BYTEBURST is the annual Mini Tech Fest of Cooch Behar Government Engineering College, designed to spark technical curiosity, innovation, and collaborative learning on a compact yet impactful scale. Organized by and for students, it features coding challenges, tech quizzes, workshops, and project showcases that foster hands-on experience and team spirit. With active involvement from all departments BYTEBURST provides a dynamic platform for budding engineers to explore, create, and connect through technology.

TECHNICAL ACTIVITIES

GDG ON CAMPUS

GDG on Campus is a student-driven community supported by Google Developers, aimed at empowering students to learn, build, and grow in the world of technology. GDSC CGEC conducts workshops, hackathons, study jams, and project-based events to help students enhance their skills in Web, Android, Cloud, AI/ML, and more. Open to all departments, the club fosters a culture of innovation, peer learning, and community impact.

NEXO VATE

NEXO VATE is the working E-Cell of Cooch Behar Government Engineering College, which is running under the Institute Innovation Cell, with the guidance of Dr. Supriyo Banerjee. Through NEXO VATE, students can get the platform to showcase their potential of problem solving and Entrepreneurship. It provides exposure to the future entrepreneurs.

ROBOVERSE

Roboverse is the Electronics & Robotics Club of our college, dedicated to fostering innovation through hands-on learning, workshops, competitions, and projects. We provide students with opportunities to explore electronics, robotics, embedded systems, and automation while developing technical skills, creativity, teamwork, and problem-solving abilities in a collaborative environment.

TECH-O-NICKS

Tech-o-Nicks, the premier tech club of Cooch Behar Government Engineering College (CGEC), serves as the central hub for all technical pursuits on campus. Located in Harinchawra, West Bengal, the club nurtures a vibrant community of curious minds, encouraging innovation beyond boundaries. With the motto #NoLimitations, it acts as a launchpad for ideas, learning, and future tech endeavors-both within the college and beyond.

PLACEMENT PROCEDURE

REGISTRATION

Students register for placement through the official portal.

1

2

SHORTLISTING

Companies review applications and shortcut eligible candidates.

PRE-PLACEMENT TALK

Students gain insights into the company's culture, job profiles, and requirements.

3

4

SELECTION PROCESS

Students are selected based on their interviews.

5

FINAL OFFER

Students get job offer, specifying details such as salary, role, and location.

FACILITIES FOR RECRUITERS

PRESENTATION HALL

- Audio-Visual Aids for Presentations
- Adequate Seating for Large Audiences
- Ideal for Company Intros and Pre-Placement Talks

INTERVIEW ROOMS

- Soundproof and Distraction-Free Environment
- Comfortable Seating Arrangements
- Multiple Rooms for Parallel Interviews

ON-GROUND ASSISTANCE

- Trained and Responsive Student Volunteers
- Escort Services for Movement Across Campus
- Real-Time Help Desk During Recruitment Days

EASY ACCESS

- Nearest Airport and Railway Station Connectivity
- Organized Transport for Recruiters
- Local Transport Coordination

DISCUSSION HALLS

- Large Seating Capacity
- Air-Conditioned, Well-Ventilated Spaces
- Whiteboards and AV Setup for Moderation

SMART ROOMS & 24X7 SUPPORT

- High-Speed LAN/Wi-Fi Access
- Projectors and Audio-Visual Equipment
- 24x7 IT and Facility Support for Technical Assistance.
